DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3 are allowed.
2. The following is an examiner's statement of reasons for allowance: A non-contact liquid level sensor comprising a pair of arcuate stators, wherein second ends of the stators are spaced from each other to form a gap having an opening angle within a range from 50 to 200 degrees, in combination with all other limitations of independent claim 1, is not disclosed nor deemed obvious in view of the prior art of record. Since the applicant has disclosed an advantage for the specific gap spacing that is not disclosed in the prior art the examiner feels that the device is novel in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
